## WEB 安全作业一

57118107 任子悦

一、实验内容

```
1. 实现主机:
```

```
Host1: ip = 10.0.0.2, domin = web.cybersecurity.seu.edu
Host2: ip = 10.0.0.3, domin = time.cybersecurity.seu.edu
Host3: ip = 10.0.0.4, domin = jsonp.cybersecurity.seu.edu
向主机的 hosts 文件中添加条目:
10.0.0.2 web.cybersecurity.seu.edu
10.0.0.3 time.cybersecurity.seu.edu
10.0.0.4 jsonp.cybersecurity.seu.edu
```

2. 在 time.cybersecurity.seu.edu 上实现接口 host2:server.js 如下:

```
const express = require('express')
const { createReadStream } = require('fs')
const bodyParser = require('body-parser')
const app = express()
app.use(bodyParser.urlencoded({ extended: false }))
app.listen(80)
app.get('/', (req, res) => {
createReadStream('index.html').pipe(res)
})
app.get('/api/date', (req, res) => {
res.send({ date: Date.now() })
})
app.get('/api/datecors', (req, res) => {
res.set('Access-Control-Allow-Origin', 'http://web.cybersecurity. seu.edu')
res.send({ datecors: Date.now() })
})
app.get('/api/jsondate', (req, res) => {
let callback = req.query.callback;
let Str = `${callback}(${JSON.stringify({ datejson: Date.now() })})`;
res.send(Str);
})
```

3. 在 web.cybersecurity.seu.edu 上实现页面,在页面中读取接口数据 time.cybersecurity.seu.edu.html 如下

```
<!DOCTYPE html>
<htm1>
<head>
<meta charset="utf-8">
<title>web.cybersecurity.seu.edu</title>
</head>
<body>
>通过 js 代码读取 time.cybersecurity.seu.edu 的接口数据
<script type="text/javascript"> async function get corsdate() {
const res = await fetch('http://time.cybersecurity.seu.edu/api/d atecors')
const data = await res.json() console.log(data)
get corsdate();
async function get date() {
const res = await fetch('http://time.cybersecurity.seu.edu/api/date')
const data = await res.json() console.log(data)
get date();
</script>
</body>
</html>
```

4. 在 jsonp.cybersecurity.seu.edu 下实现一个页面, 在页面中通过回调 js 代码读取接口数据

host3:index.html 如下:

```
<!DOCTYPE html>
<html>
<head>
<meta charset="utf-8">
<tile>jsonp.cybersecurity.seu.edu</tile>
</head>
<body>
回调 js 代码读取 time.cybersecurity.seu.edu 的接口数据
<script>
function handleTime(dat) {
    console.log(dat)
}
</script>
<script>
```

## 二、实验结果
